Descriptive Price List

OF

Hardy Roses

Herbaceous Perennials
Rock and Alpine Plants
Liliums

Flowering Shrubs, etc.

1933

OFFERED BY

WILLIAM N. CRAIG

FRONT STREET AT FEDERAL WEYMOUTH, MASS.

NON WARRANTY

I do not give any warranty, express or implied, as to description, quality, productiveness or any other matter of any bulbs, plants, seeds or other goods offered in this catalogue, although every care is taken to supply everything correctly named and of good quality. Purchasers unwilling to accept goods on these terms will confer a favor by promptly returning them.

LOWER PRICES

Prices in this catalogue are as low as can be given consistent with quality. I carry no trees or shrubs in storage sheds during the winter, such stock as we have is in the open ground suitably protected and may naturally be expected to succeed better than when not exposed to the elements, and with roots too often badly dried. In virtually all cases prices here given are constant through the year but there are occasional exceptions, as in the case of certain Lilies and Herbaceous Perennials when moderate changes may be found necessary.

AUTUMN CATALOGUE

An autumn price list is issued late in August in which will be found an extended list of Liliums, also such Hardy Bulbs as Darwin, Breeder, Cottage and other Tulips, Narcissi, Hyacinths, Crocus, Scillas, Iris, Snowdrops, Grape Hyacinths, Fritillarias, Chionodoxas, etc. Copies mailed on request.

HARDY GARDEN ROSES

Garden roses may be successfully planted either in the fall or spring. To achieve success with them thorough preparation of the ground is essential. Well drained ground, free if possible from shade, deeply spaded and liberally manured is what roses love, they are more often starved than otherwise. I do not remember having seen any which have died from over-feeding; use cow manure if possible, but stable manure, well rotted, sheep manure, and bone are all good, so is soot. Plant as early as possible in spring for the best results. Be sure roots are moist when planted, spread them out well, and firm thoroughly. Cover the swollen part from which the shoots spring at least 1½ inches. Do not prune newly planted stock until it has started to grow, then do not be afraid to head the plants back severely. During the growing season keep the surface soil stirred lightly and always do this after a rain. When you water do it thoroughly. Spraying the plants each night is more harmful than helpful. Winter protection is best afforded by drawing soil up around the plants just before freezing up weather, when the ground is hard frozen this can be supplemented by a generous covering of straw or leaves, this must not be done while ground is soft or field mice may do much damage. Do not be in too great a hurry to remove winter protection as we frequently get almost Arctic weather as late as the begin-ning of April. The time for pruning will vary with the season, but for Boston and vicinity, the middle of April is a good date.

The roses offered in this list are all grafted or budded two years old field grown stock, and are not carried over winter in sheds or storehouses, packed in sand as are a large proportion of the roses sold in the Eastern states. Being well protected outdoors with roots always moist such plants cannot fail to give more satisfaction than the usual stock offered, over half of which dies the first season. Early

orders are solicited and these will be filled as soon as the ground is open. The subjoined list is not an extensive one, but the varieties listed embrace about every known color, and are very dependable. For the rambler roses the best winter form of protection is to simply cut them loose, lay on the ground and scatter light covering of soil over them.

Fall planting of all-types of hardy roses I would strongly recommend. In recent years I have had very much better success with fall than spring planting and I would strongly recommend anyone who has any doubts as regards its success to try a few plants this fall and compare results with spring plantings.

As a summer mulch I cordially recommend Ideal Peat Moss spread to a thickness of 1½ to 2 inches, this prevents the soil drying out, keeps roots cooler and assists materially in checking weed growth, remove this in the fall and do not incorporate it in the soil. For black spot nothing is better than Massey Dust or Niagara Dust applied once a week at least through the season, and before each rain. All affected and fallen leaves should be picked up and burned, if this is not done the trouble will be more likely to be acute the following vear.

HARDY ROSES NOVELTIES AND RECENT INTRODUCTIONS

Each Autumn. Burnt orange bud, flower double of medium size burnt orange streaked with red, medium size, some fragrance,

large and fully double variety, slightly tinged lemon as it opens, pure white when fully open, has some fragrance. Extremely vigorous and a free bloomer. \$1.00 laze. (M. H. Horvath, 1932.) This is

GENERAL LIST OF HYBRID TEA ROSES

Angele Pernet. (Pernet-Ducher, 1924). Orange yellow, shaded orange apricot, a real glowing sunset color, very lovely.

Autumn. See Novelties, \$1.50.

Betty Uprichard. (Alex. Dickson & Sons, 1922.) One of the very finest bedding roses both here and abroad. A lovely combination of colors, inner face delicate salmon pink, outside glowing carmine with coppery sheen and orange suffusion.

Briarcliff. (Briarcliff Greenhouses, 1925.) A sport from Columbia without its faults. Large pointed flowers, silvery rose pink in

color.

Caledonia. See Novelties, \$1.00. Charles K. Douglas. (Hugh Dickson, 1919.) A rich scarlet rose which holds its color

well. fragrant and a very good clean grower. Columbia. (E. G. Hill Co., 1917.) For several years the leading forcing rose of its color. still much favored as a garden variety, bright pink and a free bloomer.

Chateau de Clos Voûgeot. (Pernet-Ducher, 1908.) Of a very unique color, glowing scarlet deeply shaded black and red, sweetly

scented.

Cuba. Intensely brilliant vermilion scarlet on an orange ground. Although the flowers are

almost single they possess a great charm.

Dame Edith Helen. (Alex. Dickson & Sons, 1926.) This lovely rose has steadily grown in favor. The immense blooms are of a glorious, brilliant, soft pink color, the petals curl prettily and the fragrance is quite pronounced.

Double White Killarney. (Budlong & Sons Co.,

1913.) This is the best of the white forms of Killarney, the color is pure and the plants flower very freely. Habit is rather dwarf.

Duchess of Athol. (Dobbie & Co., 1928.) Old golden orange flushed peach pink, winner in 1929 of the Nicholson cup offered for the finest hybrid tea introduction during the previous 8 years.

Duchess of Wellington. (A. Dickson & Sons, 1909.) This still remains one of the best beloved hybrid tea roses in commerce, carries coppery vellow flowers of good size and is fragrant. There are larger yellows but none more dependable.

Edith Nellie Perkins. (A. Dickson & Sons, 1928.) Long pointed buds which are creamy and blush without, the color within being salmon pink with a golden orange base. A superb rose, vigorous and very fragrant. Edel. (S. McGredy & Son, 1919.) White with

delicate ivory shading, almost scentless like most of the white roses but has a large and

well formed flower.

Etoile de Hollande. (Verschuren & Sons, 1919.) Rich crimson red, one of our very finest bedding roses where brilliancy and constant blooming qualities are desired. Very fragrant.

Feu Joseph Looymans. (Looymans, 1921.) Long pointed buds of glowing apricot and old gold, which are fragrant and of fine

form, steadily growing in favor.

Francis Scott Key. (John Cook, 1913.) A good dependable rose. Color light crimson, vigorous and hardy.

Golden Dawn. See Novelties, \$1.00.

Gruss an Teplitz. (Geschwindt, 1897.) Carries bunches of medium sized crimson red flowers which are fragrant. Too robust to go with other hybrid teas, its place is in a bed by itself or in the shrubbery border, must be more lightly pruned than other varieties or it will not bloom well.

it will not bloom well.

Independence Day. (Bees, Ltd., 1923.) Rich orange apricot flowers suffused golden yellow, very free bloomer and makes an ideal

bedder.

Irish Elegance. A charming orange apricot changing to orange red, one of the best singles.

Irish Fireflame. (Alex. Dickson & Sons, 1913.) Another lovely single rose, the color is madder orange changing to old gold.

J. C. Thornton. See Novelties, \$1.00.

Killarney Queen. (Budlong & Sons, 1912.) This is easily the best of the pink sports from the one time popular Killarney, bright pink semi-double flowers.

Kaiserin Auguste Viktoria. (Lambert, 1891.) This old variety still retains considerable popularity, the flowers are pearly white, tinted lemon, fragrant and well formed, the plant is not a very good grower however.

Lady Alice Stanley. (S. McGredy & Son, 1909.) Coral rose without, pale flesh within, extra large, a deservedly popular variety.

Lady Ashtown. (Alex. Dickson & Sons, 1904.) Light carmine pink shading to golden yellow, has been very popular for many years.

Lady Forteviot. See Novelties, \$1.00.

Lady Hillingdon. (Lowe & Shawyer, 1910.) Although a pure blooded Tea, this rose appears to be just as hardy as the Hybrid Tea section. The color is a rich tone of apricot yellow which is especially lovely in the bud.

Lady Margaret Stewart. (Alex. Dickson & Sons, 1926.) A truly glorious gold medal rose, the price of which is now within the reach of all garden lovers. The color is sunflower yellow veined orange scarlet, reverse of petals suffused carmine, of a lovely orange shade when fully open, may well be classed as a glorified Rev. F. Page Roberts, but more vigorous than that lovely rose.

Lord Charlemont. (S. McGredy & Son, 1922.) A very gorgeous and brilliant dark red rose, flowers are of an intense deep crimson scarlet color with almost black shadings, sweetly

scented.

Los Angeles. (Howard & Smith, 1916.) Rich flame color shaded orange, fragrant, lovely in bud and its glorious color gives it great popularity, must be well protected from black spot.

Lucie Marie. See Novelties, \$1.00.

Mme. Butterfly. (E. G. Hill Co., 1918.) A glorified sport from Ophelia, richly tinted gold near base of petals, has some fragrance and is a great bloomer.

Margaret McGredy. (McGredy, 1927.) A magnificent rose from McGredy's. Brilliant red petals on hinges of deep gold, one of the finest roses in commerce and seldom out of bloom.

M. G. A. Van Rossem. Spite of its rather awesome name this is a grand rose. The flowers are brownish yellow strongly shaded

copper-pink.

Mme. Edouard Herriott. (Pernet-Ducher, 1913.) Often referred to as the "Daily Mail Rose," is one of the most popular roses ever introduced. Coral red and orange in the bud, opening orange red, protect well from black spot.

Mme. Caroline Testout. (Pernet-Ducher, 1890.) Large satiny rose flowers with a moderate fragrance, a wonderfully fine bedding

variety.

Mme. Leon Pain. Of a very distinct color, buds open salmon and turn pink when expanded, tinted with orange and flesh in the center. Fragrant, is a good grower and carries good

foliage.

Margaret McGredy. (S. McGredy & Son, 1927.) One of McGredy's finest introductions. A good grower and profuse bloomer, the color is orange scarlet, shaded yellow at the base and is very lovely.

Miss Rowena Thom. (Howard & Smith, 1928.)
Brilliant rosy pink with golden suffusion.
Long shapely buds and possesses a pleasing fragrance. Larger and better colored

flowers than the old Radiance.

Mrs. Aaron Ward. (Pernet-Ducher, 1901.)
Buff in bud, tawny yellow when open, of
dwarf habit, free flowering and is good for
the edges of beds.

- Mrs. A. R. Barraclough. (S. McGredy & Son, 1926.) Bright, soft carmine pink, retaining its color amazingly well. Long pointed buds and very double fragrant flowers, a superb rose.
- Mrs. A. R. Waddell. (Pernet-Ducher, 1908.) Rich apricot fading to salmon orange, grand fall bloomer.
- Mrs. Charles Bell. Shell pink, of globular form, very vigorous.
- Mrs. Erskine Pembroke Thom. Far superior to Souv. de Claudius Pernet as a yellow for

the garden. Long buds of a rich lemon yellow color.

Mrs. Henry Bowles. (Chaplin Bros., 1921.) Luminous deep salmon pink, high centered flower.

Mrs. Henry Morse. (S. McGredy & Son, 1919.) Bright rose impregnated vermilion, dwarf habit and very free flowering, one of the finest hybrid teas in commerce.

Olympiad. See Novelties, \$1.00.

Ophelia. (William Paul & Son, 1912.) No other hybrid tea rose attained such universal popularity as this rose, it has also been the progenitor of most of the really fine roses of this type existing today. Color cream and pink with a glint of gold in the center. Very vigorous and floriferous.

Padre. (B. R. Cant & Sons, 1921.) Flowers are almost single and of a very vivid coppery orange color, deeper than Mme. E. Herriot. Must be well protected against

black spot.

Portadown Fragrance. See Novelties, \$1.00.

President Herbert Hoover. (Coddington, 1930.) A very beautiful and fragrant rose which steadily grows in favor. The delightful combination of cerise pink, flame, scarlet and yellow which make up the flower thrills everyone, much superior outdoors to Talisman.

Radiance. (John Cook, 1908.) Probably the hardiest, most vigorous and most generally dependable hybrid tea in America, free from about all ailments, almost too robust to plant with the bulk of its class. Color silvery rose, and fragrant.

Red Radiance. (Gude Bros., 1916.) Rosy red and floriferous like the type, very vigorous.

Rev. F. Page Roberts. (B. R. Cant & Sons, 1921.) A tremendously popular variety, the long pointed buds are coppery red in color, opening a lovely yellow, not a very good grower.

Rapture. (Traendly, 1926.) A richly colored sport from Mme. Butterfly, a good grower.

Shot Silk. (Alexander Dickson & Sons, 1924.) Beautifully shaped flowers of an orange rose, color shaded golden yellow and flushed soft rose, sweetly scented and a good grower.

Souvenir. See Novelties, \$1.50.

Souv. de Claudius Pernet. (Pernet-Ducher, 1920.) Lacks fragrance and often shows an ugly dark center, but retains great popularity, the golden yellow flowers do not fade out even under strong sunshine.

Souv. de Georges Pernet. (Pernet-Ducher, 1919.) Orient red with a yellow shading, this is a much more beautiful rose than Claudius Pernet in my estimation.

Talisman. (Montgomery, 1929.) No rose ever introduced made such a sensation as Talisman. It blooms very freely in the garden, the flowers are unique in their colorings, running from rich apricot, gold, deep and rose pink to old rose. Immensely popular.

Ville de Paris. (Pernet-Ducher, 1926.) Rich, pure buttercup yellow, buds are long and flowers extra large. Preferable to Souv. de Claudius Pernet.

Wilhelm Kordes. (W. Kordes Sons, 1922.) The color here is truly unique, being rich red with a coppery suffusion overlying a golden salmon ground. Long buds, high centered flowers and very fragrant.

Willowmere. (Pernet-Ducher, 1913.) Buds are coral red opening a glowing pink suffused with yellow at the base of the petals. Prolific, and a really fine bedding rose.

W. E. Chaplin. See Novelties, \$1.00.

William Orr. See Novelties, \$1.50.

All Hybrid Tea Roses unless otherwise priced are 75 cents each, \$7.50 per doz., \$57.50 per 100.

We carry only grafted plants on Japanese multiflora stock, own root plants are useful only in the warmer southern states and are lacking in both vigor and hardiness in New England.

HYBRID PERPETUAL ROSES

This type of rose blooms freely in June but with a few exceptions very little later; they are hardier than the Hybrid Teas and their fragrance is generally much more pronounced. As they require less winter protection than the Hybrid Teas they are more dependable for the colder sections of New England.

Baron de Bonstettin. (Liabaud, 1871.) Velvety maroon shaded dark crimson, very fragrant. Captain Hayward. (Bennett, 1893.) Crimson scarlet, fine form, fragrant and robust.

Frau Karl Druschki. (Peter Lambert, 1900.) Very large, pure white, extremely vigorous, although without fragrance. The most popular of all white roses.

General Jacqueminot. (Roussel, 1852.) Still a popular rose, although there are finer varieties of similar color. Flowers are bright crimson scarlet and the buds are lovely.

George Ahrends. (Hinner, 1910.) Sometimes called the "Pink Druschki." The color is a pure soft pink, large and beautifully formed flowers which are freely produced.

Gloire de Chedane Guinnoseau. Bright ver-

milion red, a fine variety.

Fisher Holmes. (Eugene Verdier, 1865.) Reddish scarlet, beneath a black velvety sheen, very delightful.

Hugh Dickson. (Hugh Dickson, 1905.) Dark red velvety flowers, very robust.

J. B. Clarke. (Hugh Dickson, 1905. A large light red shaded blackish maroon. A husky grower.

Mme. Albert Barbier. (Barbier & Co., 1925.) A grand variety of recent introduction, white with a delicate flush of pink, of dwarfer habit than its seed parent, Frau Karl Druschki.

Magna Charta. (William Paul & Son, 1876.) Bright pink suffused carmine, sweet scented, hardy and robust. Much used for forcing.

Mrs. John Laing. (Bennett, 1887.) Immensely popular, blooms just as freely as the Hybrid Teas. Large, clear pink flowers, freely produced and shoots are thornelss.

Mrs. R. G. Sharman Crawford. (Alex. Dickson & Sons, 1894.) Rosy pink, running lighter towards the center.

Paul Neyron. (Levet, 1869.) Enormous flowers, dark lilac rose in color, very fragrant. Prince Camille de Rohan. (Eugene Verdier,

Prince Camille de Rohan. (Eugene Verdier, 1861.) This darkest of all the H. P. roses is still indispensable. The color is dark crimson, shaded maroon with a glorious fragrance. Given some shade the beautiful flowers will not burn.

Ulrich Brunner. (Francois Levet, 1881.) Bright carmine red, very full flowers with rich fragrance.

Prices of all Hybrid Perpetual Roses 60 cents

each, \$6.00 per doz., \$45.00 per 100.

POLYANTHA OR "BABY RAMBLER" ROSES

The Polyantha roses are very persistent bloomers, being of dwarf or moderate habit, they are admirable for bedding and mass effects. While sometimes used as edgings for beds of Hybrid Teas they are much better used alone.

Chatillon Rose. (August Nonin, 1923.) Bright pink semi-double flowers, shaded orange, a

very profuse bloomer.

Ellen Poulsen. (D. L. Poulsen, 1912.) Large compact trusses of bright rose flowers very abundantly produced, plants rarely exceed 18 inches in height.

Else Poulsen. A beautiful tone of pure rose pink, large flowers very freely produced,

grows 24-30 inches in height.

Echo. Large open frilled flowers, bushy habit,

thornless, constant bloomer.

George Elger. (E. Turbat & Co., 1912.) Lovely small yellow buds paling when fully expanded and with age, the only real golden polyantha.

Gloria Mundi. Brilliant orange scarlet in big

clusters, a striking color.

Golden Salmon. (William Cutbush & Son, 1926.) This beautiful variety has caused something of a sensation. The color is novel, being brilliant golden orange scarlet, always flowering.

Mrs. R. M. Finch. A new and valuable Australian introduction. Carries double rosy pink flowers 2 inches in diameter, profuse

bloomer.

Gruss an Aachen. Different from all other Polyanthas on account of the remarkable size of the flowers which are often mistaken for Hybrid Teas. Buds are orange red and yellow, when fully open the very double flowers are a charming combination of light pink and salmon yellow. A wonderful fall bloomer.

Ideal. (J. Spek, 1922.) Small dark red flowers in large bunches, a continuous bloom.

Kirsten Poulsen. A grand companion to Else

Kirsten Poulsen. A grand companion to Else Poulsen of same height but the large single flowers are bright scarlet with remarkable lasting properties.

Lady Reading. The habit is similar to that of Ellen Poulsen but the flowers are bright red

and possess some fragrance.

Mme. Cecil Brunner. (Ducher, 1881.) Popularly known as the "Sweetheart Rose," delightful for boutonnieres. The clusters of small light pink flowers are very freely produced, needs good winter protection.

Mrs. W. H. Cutbush. (W. Cutbush & Son, 1906.) A very good grower. Bright rosy, pink flowers of medium size in extra large clusters.

Orange Perfection. Orange red, one of the best of its color for general purposes.

Pink Gruss an Aachen. See Novelties, \$1.00.

Paul Grampel. Deep orange scarlet in large clusters.

Price of Polyantha Roses unless otherwise priced 50 cents each, \$5.00 per doz, \$40.00 per 100.

CLIMBING, RAMBLER OR PILLAR ROSES

- Alida Lovett. (Dr. Van Fleet, 1905.) Bright shell pink of large size, lightly shaded soft yellow and with some perfume.
- Albertine. (Barbier & Co., 1921.) Of a most unique color, the vermilion buds expand to large perfectly shaped moderately double flowers of a lively cameo pink color with a silvery suffusion, sweetly scented.
- American Beauty. (Hoopes Bros. & Thomas, 1909.) Large rich carmine flowers freely produced.
- American Pillar. (Dr. Van Fleet, 1902.) Carries immense trusses of crimson pink flowers, which last extremely well, possesses great vigor.
- Aviateur Bleriot. Small clusters of light yellow flowers with some fragrance. Fine as either a climber or trailer, rich shining foliage.
- Blaze. See Novelties, \$2.00.
- Breeze Hill. This Van Fleet variety has been well described as a hardy Gloire de Dijon. Flowers are very large and double, the color being a deep cream with tints of pink and salmon.
- Bess Lovett. (Dr. Van Fleet, 1905.) Bright light red, semi-double flowers of extra size produced on large trusses, very vigorous.
- Bonfire. Light trusses of crimson flowers similar to Dorothy Perkins (which it greatly resembles), except in color.
- Chaplin's Pink Climber. See Novelties, \$1.00.
- Christine Wright. (Hoopes Bros. & Thomas, 1909.) Refreshing bright wild rose-like flowers, 3-4 inches across, borne singly or in

clusters, quite distinct.
Climbing Lady Ashtown. (Bradley, 1909.) A moderately vigorous climber carrying flowers the same as the popular Lady Ashtown, flowers over a long season.

Dr. Huey. (Capt. Thomas, 1914.) Crimson maroon, shaded black, a striking variety of similar habit to Paul's Scarlet Climber.
Dr. Van Fleet. (Dr. Van Fleet, 1910.) Ex-

Dr. Van Fleet. (Dr. Van Fleet, 1910.) Extremely vigorous, large clear pink flowers carried on strong stems, splendid foliage, a

grand climber.

Dorothy Perkins. (Jackson & Perkins Co., 1902.) A late flowering variety with small double flowers carried on long pendulous sprays, splendid foliage and is very vigorous, far more planted than any other pink climb-

ing rose.

Emily Gray. (Dr. A. H. Williams, 1918.) This lovely light orange yellow climber is steadily forging its way into popular favor, reports of its tenderness frightened some would-be planters, but it has succeeded so well in many sections that this fear is vanishing, flowers are very large, carried on long stems and the foliage is very attractive.

Excelsa. (M. H. Walsh, 1910.) Large clusters of bright crimson red flowers, far superior to the old Crimson Rambler with much bet-

ter foliage.

Gardenia. (W. A. Manda, 1899.) Buds are yellow opening pure sulphur, foliage very glossy and attractive, fine as either a climber or trailer.

Ghislaine de Feligonde. Rich apricot yellow in bud, buff tinted copper when expanded, blooms over a long season and is the hardiest of all the yellow climbers, \$1.00 each.

est of all the yellow climbers, \$1.00 each. Glenn Dale. (Dr. Van Fleet, 1927.) Beautiful lemon yellow buds. Introduced by the Ameri-

can Rose Society. A charming variety.

Heart of Gold. (Dr. Van Fleet.) Another of the late Dr. Van Fleet's fine introductions, flower is large, crimson with very prominent stamens.

Hiawatha. (M. H. Walsh, 1904.) Large trusses of bright red flowers very abundantly pro-

duced, a splendid climber.

Jacotte. A very lovely salmon orange variety with a gold shading. Possesses a little fragrance, the foliage is very lustrous. This

rose is thriving wonderfully in many parts of Massachusetts, 75 cents each.

Kitty Kinnimonth. See Novelties, \$1.00. Le Reve. A fine yellow pillar rose which stays yellow, is also fragrant and carries splendid foliage.

Mme. Gregoire Staechelin. Better known as the "Spanish Beauty" rose, an immense pink

flower, extremely vigorous.

Marie Gouchault. (E. Turbat & Co., 1927.) Resembles Dorothy Perkins in habit but the flowers are much more brilliant, of a geranium pink color with no trace of magenta.

Mary Wallace. (Dr. Van Fleet, 1921.) Large bright pink flowers illumined with gold and

quite fragrant, very vigorous.

New Dawn. See Novelties, \$1.50. Paul's Lemon Pillar. One of the most beautiful pillar roses in commerce, the individual flowers are large, full and soft yellow in

color, a lovely rose. 75 cents each.

Paul's Scarlet Climber. (William Paul & Son, 1916.) The finest of all our climbing red roses, flowers are large, carried on trusses of moderate size and hold their color until fading, a grand pillar rose.

Primrose. A vigorous, hardy and quite dependable climber with soft yellow flowers which

are quite large and fully double.

Silver Moon. (Dr. Van Fleet, 1910.) Holds first place easily amongst climbing roses. The large flowers are pure white in color and the golden anthers show up very prominently above the translucent petals. Splendid foliage and extremely vigorous.

Scorcher. See Novelties, \$1.00.

Star of Persia. A very early bloomer, the flowers are large and open a very rich golden yellow fading somewhat under strong sun-light, a very lovely rose and dependably hardy.

Tauscendschoen. (Schmidt, 1906.) Useful on account of its early flowering qualities although the pink flowers fade out rather badly in sunshine, fine as pillar rose.

- Wichuraiana. A fine Japanese rose, useful as climber and also for covering banks, the foliage is very attractive, making a perfect mat of evergreen. The single white flowers are carried in trusses.
- Prices of Climbing Roses unless otherwise specified 50 cents each, \$5.00 per doz. 12 varieties distinct supplied for \$5.00. All but a few varieties can be supplied at \$40.00 per 100.

RUGOSA ROSES AND THEIR HYBRIDS

- Agnes. (Saunders, 1922.) Of Canadian origin and will withstand rigorous winter conditions, buds are coppery turning amber yellow, a strong grower. Flowers are fragrant.
- Conrad Ferdinand Meyer. (Muller, 1900.) A very handsome rugosa, the large flowers are light pink in color and very freely produced, very robust grower.
- F. J. Grootendorst. (Degoey, 1918.) Flowers are bright red and suggestive of the old Crimson Rambler in color, borne very abundantly through the season, makes a fine hedge plant.
- Max Graf. A trailing variety for covering ground or walls, the light single pink flowers are very freely produced, carries splendid foliage.
- Pink Grootendorst. (F. J. Grootendorst & Sons, 1923.) Has all of the good qualities of the original Grootendorst but is light pink in color. \$1.00 each.
- Sir Thomas Lipton. (Dr. Van Fleet, 1900.) Much the finest white rugosa although not a constant bloomer.
- Vanguard. See Novelties, \$1.00.
- Prices of Rugosa Roses except Vanguard 50 cents each, \$5.00 doz., \$40.00 per 100.

HYBRID SWEETBRIAR ROSES

Anne of Geierstein. Tall thorny plants, fragrant foliage, single crimson flowers.

Flora McIvor. Small single white flowers

tinted pink.

Lady Penzance. Makes a handsome shrub covered with single coppery colored flowers in early spring.

Lord Penzance. Flowers are fawn colored.

Foliage deliciously fragrant.

Meg Merrilies. Single rosy carmine flowers, foliage highly perfumed.

All of the Hybrid Sweetbriars were raised by the late Lord Penzance, they make fine plants for the shrubbery but are too robust to grow with H. T.'s or other bedding varieties.

Prices of Sweetbriar Roses 60 cents each,

\$6.00 per doz.

MISCELLANEOUS ROSES

Austrian Copper. In cultivation since 1596. The single flowers are rich coppery red in color, the reverse of petals golden yellow. Quite scarce.

Blanche Moreau. A lovely pure white moss

rose. 75 cents.

Ecae. A fine Chinese variety with scented foliage and sulphury yellow flowers, makes a rather shapely bush 5-6 feet high and of equal width.

Cabbage. (Rosa centifolia.) One of the oldest roses in commerce, fragrant rosy pink flow-

Harison's Yellow. Introduced by Harison just 100 years ago, carries large semi-double

golden yellow flowers, later than Hugonis. Hugonis. The earliest of all the species roses to bloom, makes a very shapely wide spreading shrub, a veritable dream of golden glory while in flower, very hardy but has a bad knack of dying out mysteriousy during hot weather in August. Worth planting, however, if but for one or two crops. 75 cents.

Moyesii. Strikingly beautiful species growing taller than Hugonis. Carries brilliant and attractve deep blood red flowers in June.

Persian Yellow. Darker than Harison's Yellow but of similar habit, and fragrant.

Salet. A pretty perfumed pink moss rose, a fine companion for Blanche Moreau. 75 cents.

Spinosissima Altaica. A native of Siberia and a very hardy form of the old Scotch rose, splendid bush for the shrubbery or along driveways, flowers are produced in great abundance, usually white in color, occasionally pinkish or yellow. Strong plants from 6 inch pots.

York and Lancaster. One of the most ancient roses in cultivation, brought down to us from the "Wars of the Roses" between the houses of York and Lancaster in the middle ages.

Zanthina. A fine Chinese species rather more dependable than Hugonis, the flowers are double yellow and are very freely produced.

Prices on Miscellaneous Roses, unless otherwise priced \$1.00 each, \$9.00 doz.

STANDARD OR TREE ROSES

Tree roses are steadily growing in favor, they are splendid for planting in the corners of beds or dotting through beds of Hybrid Teas. All of the plants we offer this season are worked on the Oregon brier with perfectly straight and sturdy stems, much superior to the rugosa stems usually seen. Winter protection is best afforded by burying the plants. Wrapping with straw is totally inadequate in New England except for one or two very hardy varieties. Tree Roses are less subject to black spot than dwarf roses, as their height permits of a better circulation of air amongst their heads. We can make deliveries just as soon as frost leaves the ground. It is good practice to wrap a bunch of sphagnum moss about the budded portion and keep this moist until plants start into active growth. The following varieties can be supplied. As stocks of

Standard Roses in America on Oregon Brier stocks are quite limited early orders are re-

spectfully solicited.

Betty Uprichard Mme. Edouard Herriot Etoile de Hollande Mrs. Erskine P. Thom Frau Karl Druschki Mrs. Henry Bowles Lady Alice Stanley Mrs. Henry Morse

Ophelia Los Angeles

Mme. Butterfly Souv. de Claudius Pernet Stems of Standard Roses average 40-42 inches in height, they are heavy and perfectly straight. No one who has once tried Oregon Brier stocks is ever likely to buy those on Rugosas again on account of their crookedness.

Prices of Standard Roses \$3.00 each, \$33.00

per doz.

HARDY LILIUMS

These are one of my leading specialties, and the greater proportion of those offered are home grown bulbs. The coming of Lilium regale paved the way for a tremendously increased interest in Lilies. Whereas formerly but a limited number of varieties were listed or grown, the demand today is for a very much wider assortment, embracing practically all Lilies which will grow in North America. The bulb rooting varieties like Candidum and Testaceum should be planted quite shallow, 2-3 inches suffices, while such stem rooters as regale, speciosum, auratum, Henryi, Sargentiae, Browni, and others should be covered 8-12 inches. All Lilies should be planted where their feet will be dry in winter, fresh manure must never be used in the soil at planting time, if very old and well decayed it is all right, all lilies love leaf mold and they seem to root with avidity in peat moss, sand is good for all of them and at planting time a cushion should be placed for each bulb to rest on. scattering more above them.

Candidum can be planted from early August onwards, the majority of other lilies are ready

in October but the imported bulbs of speciosum and auratum with one or two other varieties rarely arrive in America before December 1, sometimes much later, if places where these are to go are mulched to exclude frost they can be planted in either December or January, failing this bulbs should be either kept in dry soil over winter in a cold cellar or potted and planted out in early spring. Bulbs should never be left exposed to sun and air for more than a brief time, scales will seem less their plumpness, and shrivelled bulbs. soon lose their plumpness, and shrivelled bulbs will never give the same results as plump ones. The idea that Lilies must be planted in either fall or early spring is utterly wrong. During recent winters we have planted out large numbers during December, January, February and March, always with excellent results. Not only may Lilies be planted while they are dormant or nearly so, but they can safely be moved while in active growth. We find that Lilies do not require much winter mulching, in fact the bulk of our own are not mulched at all. A few varieties like sulphureum, japonicum, rubellum and certain Pacific coast varieties will however be benefited by a mulch. Numerous Lilies do not succeed well if spring.

planted, for that reason we do not at this season list more than a fractional part of those we grow. A complete list will be found in our fall catalogue issued during August.

Our exhibits of Lilies have received numerous

gold and silver medals and other awards in the last five years.

List of Liliums Suitable for Spring **Plantings**

Auratum. (Golden banded lily of Japan.) Massive flowers, each with a distinct gold band, very fragrant.
25-50 cents each, \$2.50-\$5.00 doz.

Auratum Pictum. This fine form is distinguishable by the band through each segment being reddish at the end, and yellow at the base, it is spotted crimson.

75 cents each, \$8.00 doz.

Auratum Platyphyllum. The immense flowers of this variety are very lightly spotted and are as much as 12 inches in diameter, the foliage is broader while the petals are overlapping and possess more substance than in the type.

30-50 cents each, \$3.00-\$6.00 doz.

Auratum Virginale. This is the purest white of all the auratums, any spots found are yellow and not crimson, the same gold band, however, is found. An exquisite variety.

50-75 cents each, \$6.00-\$8.00 doz.

Auratum Wittei. Somewhat similar to virginale but the segments are shorter and broader than in other forms.

75 cents each, \$8.00 doz. lected Bulbs. These

Auratum. Wild Collected Bulbs. are smaller sized than those cultivated but our experience with them encouraged us to make a larger importation last winter as they were almost entirely free from disease. They come in quite a variety of forms but are very dependable and we heartily recommend lily lovers to try them out. On these can give very attractive prices.

25-40 cents each, \$3.00-\$4.00 doz., \$2000-

\$30.00 per 100.

Batemanniae. No lilv flowering in late July is so fine as this variety, it attains a height of 3 feet and the upright facing flowers are of a rich apricot color, carried 8-15 to a stalk. I have a large stock of this lovely lily.

35 cents each, \$4.00 doz., \$30.00 per 100

Browni Odorum. The large creamy white trumpet shaped flowers in this lily have a very distinct fragrance, the reverse side of the trumpet is purplish. Plant where bulbs will get good drainage and be sheltered from strong winds.

\$1.00 each, \$10.00 doz.

Concolor. This charming rock garden lily comes to us from Siberia, it is an early bloomer with rich crimson scarlet flowers facing upwards, rarely exceeds 18 inches in height. Follows tenuifolium in its season of bloom. 40 cents each, \$4.00 doz.

Croceum. This is the true old orange lily of British gardens where it is seen growing luxuriantly on every hand, grows much taller than umbellatum and blooms later, not infrequently carrying 16-20 flowers to a stem. Color rich orange, one of our very best lilies.

40 cents each, \$4.00 doz.

Davuricum. A handsome Siberian variety, resembles our native Philadelphicum somewhat with its orange red, black spotted, upright cup shaped flow-30 cents each, \$3.00 doz. ers.

 \mathbf{A} (Thunbergianum). Elegans growing and early blooming type, fine for mass effects and bedding, flowers are erect. Choice mixture.

25 cents each, \$2.50 doz.

Elegans Aureum Nigro-Maculatum. Apricot with black spots. 25 cents each, \$2.50 doz.

Elegans Alice Wilson. Lovely large pale yellow, deeper in centre.

50 cents each, \$5.00 doz.

Elegans Atro-Sanguineum. Dark red, crimson in centre. 25 cents each, \$2.50 doz.

Elegans Leonard Joerg. A good apricot variety with dark spots.

30 cents each, \$3.00 doz.

Giganteum Himalaicum. This is the most noble of all lilies and is not to be confounded with the form of longiflorum grown by florists and called giganteum. The ideal location for this grand Himalayan lily is in an open glade in the woodland where it can be broken from strong winds. The large bulbs must be planted shallow and a soft mucky soil containing plenty of humus and sand is what they like. Spring planting is best. The large tubular flowers are pure white with a purplish tint near the base and purple midribs, the flowers are very fragrant, the stems under good culture rise 10-12 feet high. Strong bulbs. \$3.50 each.

Hansonii (Hanson's Lily). One of the six best Lilies for North America. The leaves are carried in whorls and persist quite late. The yellow flowers which are spotted brown are very fragrant. Seems to thrive in either sunshine or shade. 50 cents each, \$5.00 doz., \$40.00 per 100

Henryi (Henry's Lily). Sometimes called the "yellow speciosum." The orange yellow, reflexing flowers appear during August. Has very great vigor and sometimes attains the height of 8-10 feet. Extremely dependable.

25-50-75 cents each, \$3.00-\$5.00-\$7.50 doz.

Japonicum (Krameri). A beautiful Lily with trumpets of pure peach pink flowers. The stiff stems carry 2-6 flowers each and the flowers are at their best in mid-July. Planted in the open with merely a winter mulch of peat moss this Lily grows and blooms astonishingly well, must have perfect drainage and bulbs need covering 6-8 inches.

50 cents each, \$5.00 doz.

The old purple Martagon lily Martagon. is of very vigorous habit and often attains a height of 6 feet or more, carrying up to 30 flowers per stalk, flowers in early June. Plant 4 inches deep.

30 cents each, \$3.00 doz.

Martagon Album (White Turks-cap Lily). Pure waxy white flowers produced a few days later than those of Martagon.

50-60 cents each, \$5.00-\$7.00 doz.

Martagon Dalmaticum. One of the finest forms of martagon, very robust, flowers are occasionally wine red in color but usually deep, glossy purple appearing black in the distance. Choice and scarce.

\$2.50 each

Monadelphum (Colchicum). A beautiful Lily from the Caucusus. Likes very well drained soil and the addition of plenty of gritty material will make conditions more congenal for it. The yellow flowers appear in early June and are very lovely. Immense bulbs.

50 cents each, \$5.00

Monadelphum Szovitzianum. A superior form with purer golden yellow flowers, the lovely fragrant flowers are arranged like pendulous bells around a sturdily graceful stalk. Extra fine bulbs.

60 cents each, \$7.00 doz.

Philippinense Formosanum. A hardy form of the above lily from the mountains of Formosa which winters well in northern New England. The trumpets are colored brownish externally. bloomer not coming in season until Au-

gust and September. 50 cents ea., \$5.00 doz.

Pyrenaicum. The yellow turk's cap Lily from Europe blooms with tenuifolium in early June carrying many small greenish yellow flowers with brown spots. The foliage is graceful. Bulbs are large and should be covered 6 inches.

50 cents each, \$6.00 doz.

Regale. Easily the most widely planted and popular Lily in America today. Succeeds under widely different conditions and is hardy, vigorous, floriferous, disease proof and absolutely dependable. The fragrant flowers have a delicate pink suffusion with a sulphury throat, externally the colorings show reddish brown through the white. We have a big stock of this glorious Lily and have this season marked prices down substantially.

Extra big bulbs, 9—11 inch size,

50 cents each, \$5.00 doz., \$40.00 per 100 Large flowering bulbs,

40 cents each, \$4.00 doz., \$30.00 per 100

Good flowering bulbs,

25 cents each, \$2.00 doz., \$18.00 per

Small flowering bulbs,

15 cents each, \$1.50 doz., \$10.00 per 100 Bulbs to flower a year later, 50 cents doz., \$3.00 per 100

Speciosum Album. Large reflexing pure white flowers which are in season outdoors from mid-August until October. Also fine for pot culture.

35-50 cents each, \$4.00-\$6.00 doz.

Speciosum Album Kraetzeri. A striking pure white form with green bands running down the centre of each petal.

50 cents each, \$6.00 doz.

Speciosum Magnificum. The large recurving flowers are rich carmine pink, margined white, a very fine variety. 25-50 cents each, \$2.50-\$5.00 doz., \$20.00-\$40.00 per 100.

Speciosum Melpomene. Dark carmine shaded purple, heavily spotted and margined white, an extra richly colored

form.

30-40 cents each, \$3.50-\$5.00 doz., \$25.00-

\$40.00 per 100.

Speciosum Rubrum. Carries both green and dark stems with rose colored flowers of varying shades.

25-40 cents each, 2.50-5.00 doz., 20.00-

\$40.00 per 100.

Sulphur-Gale. A fine hybrid between sulphureum and regale, very vigorous and hardy, extends the flowering season for regales. The flowers are in form like sulphureum and approximate regale in color50 cents each, \$5.00 doz.

Sulphureum. This magnificent Lily comes from Upper Burmah, it carries large, sulphur yellow, funnel shaped and very fragrant flowers which vary from 8 to 12 inches in length. The robust stalks attain a height of 4-8 feet and as many as 12 flowers are carried on each stalk. It has wintered splendidly in New England and blooming late is of especial value. Requires deep planting. Grand for pot culture also.

Very large bulbs\$2.00 each, \$22.50 doz. Second size bulbs\$1.50 each, \$17.50 doz.

Tenuifolium. Our earliest flowering Lily each year is the Siberian coral Lily, in

1930 the first flowers opened on May 27. A gem for the rock garden. Graceful foliage and brilliant recurving red flowers carried 6-20 on a stem. This Lily, under good conditions grows 3-4 feet high and we have counted 25 flowers to a stalk. Should be in every collection. Extra large bulbs,

40 cents each, \$4.00 doz., \$30.00 per 100

Strong bulbs,

for naturalizing.

20 cents each, \$2.00 doz., \$12.50 per 100 Tigrinum Flore-Pleno. A double form which is very pleasing, flowers a little later than the single form, rather less brilliant in color...30 cents each, \$3.00 doz.

Tigrinum Fortunei Giganteum. Extremely vigorous, growing 6 feet or more in height, sometimes carrying 30-50 flowers per stem, color salmon orange spotted deep purple. 30 cents each, \$3.00 doz.

Tigrinum Splendens. An especially fine form with rich deep orange flowers, spotted black. By planting in late spring vigorous stalks may be had in flower as late as September 15.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum. Early and very free flowering hybrids, coming in many shades of color, in season during June and early July. Fine mixture.

25 cents each, \$2.50 doz., \$15.00 per 100

Umbellatum Erectum. Fine form, sturdy habit, rich red flowers freely produced.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum Grandiflorum. Extremely fine orange red form.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum Incomparabile. Splendid dark red form25 cents each, \$2.50 doz.

Umbellatum Sappho. Very good light orange red variety.

25 cents each, \$2.50 doz., \$18.00 per 100

Umbellatum Splendidum. The finest of all the highly colored varieties, rich vermilion and orange, very strong grower, carries immense heads of bloom.

60 cents each, \$6.00 doz.

Extra large bulbs....\$1.00 each, \$10.00 doz.

Willmottiae. Miss Willmott's lily is vigorous and hardy, attaining when established a height of 5-6 feet and carrying up to 30 flowers per stem. The recurving flowers are of a vivid reddish orange color and appear about mid-July. The foliage is graceful and the plant of a very refined appearance.

Extra large bulbs....\$1.00 each, \$10.00 doz. Nice flowering bulbs, 50 cents each, \$5.00 doz.

The foregoing is by no means a complete list of Liliums carried, many I do not consider suitable for spring planting, amongst these are grayi, carolinianum, canadense, superbum, philadelphicum, humboldtii, pardalinum, and others. A very complete list of over 100 varieties will be found in our autumn bulb catalogue issued in late August.

We cordially invite all interested in these bulbous aristocrats to come and look over our beds the coming season, a few blooms open in late May, during June and July numerous varieties will be found flowering, others extend the season through August and September until late October. We will have a good many varieties in pots blooming ahead of the outside dates.

We ship Liliums to as distant points as New Zealand and South Africa, and make many shipments to Great Britain.

LILIUM SEEDS

The great majority of Lilies come rather readily from seeds, some will germinate within three weeks, others require three months, a few as much as a year. A great many amateur garden lovers are very successfully raising Lilies from seeds and appended will be found a list of varieties we can furnish at 50 cents per liberal pkt. Smaller pkts. of many kinds for 25 cents. A collection of 12 varieties of easy culture for \$3.00, 24 varieties for \$5.50. April and May are the months when amateurs will have the best success in raising Liliums from seeds. We will be glad to give cultural directions to any buying seeds who desire it. By starting certain varieties in heat during the winter we have succeeded in flowering some of them in from 9-15 months. Raising Liliums from seeds is comparatively simple and numerous amateurs are now increasing their stock in this way.

We have the following varieties, all of home saved seeds: Amabile, auratum, auratum virginale, auratum platyphyllum, Brocade, Callosum, Croceum, candidum, canadense flavum, canadense rubrum, Davidi, elegans, Grayi, Ellen Willmott, giganteum Himalaicum, Henryi, Japonicum, Longiflorum formosum, longiflorum, Marhan, Martagon, Martagon album, monadelphum Szovitzianum, cordifolium, cernuum, Maximowiczii, Miss Willmott, Mrs. R. O. Backhouse, Philippinense formosanum, spealbum, speciosum rubrum, Sutton ciosum Court, Sceptre, pardalinum, pardalinum giganteum, princeps, regale, regale hybrids, sulphur-gale, Humboldti, tenuifolium, tenuifolium Golden Gleam, Washingtonianum, Uke-Yuri, superbum, umbellatum, umbellatum Mahony, Roezlii, Washingtonianum Willmottiae.

New Practical Work on Lilies

"Lilies and Their Culture in North America"

By WILLIAM N. CRAIG

Covers the Culture of Lilies both in the Garden and Greenhouse, treats over 100 varieties. Profusely illustrated with full page plates. Covers such points as Lilies in History, Classification of Lilies, Geographical Distribution, Suitable Soils, Manures and Fertilizers, Lime and its Effects, the Value of Mulches, Depths to Plant Lilies, Preparation of Soils, Lilies for Special Permanent Purposes, Lilies for Cutting, Insect Pests and Diseases, Propagation, Lilies for Pot Culture and Forcing, Notes on Varieties.

This, the first work on Lily culture in America, has been warmly praised by the Horticultural press of both America and Europe. 144 pages.

Price \$3.00 postpaid from the Author in Weymouth, Mass., or The Florists Publishing Co., South Dearborn Street, Chicago, Ill.

HARDY HERBACEOUS PERENNIALS, INCLUDING ROCK PLANTS

Varieties suitable for Rock Garden plantings are marked R.

NOVELTIES

RECENT INTRODUCTIONS AND UNUSUAL VARIETIES.

ASTER

Hybridus Iuteus. A delightful variety extremely popular abroad and but little known here as yet, heads of light, airy soft yellow flowers abundantly produced through a good part of the summer. Height 24

inches $\dots 35$ cents each, \$4.00 doz.

Skylands Queen. We introduced this grand variety in 1931 and it certainly charmed buyers, the beautiful lavender flowers are 2 inches in diameter carried on stems 2 feet in height. Beautiful in the garden and also makes an admirable pot plant35 cents each, \$4.00 doz.

R. ACHILLEA

Chrysoconica. Fine rock garden variety makes a low, dense mat like growth and spreads quickly, 35 cents each

CHRYSANTHEMUM

The winner of numerous Aladdin. gold medals and other awards. A new break in chrysanthemums flowering continuously from July onwards. Color light brown early and deepening as summer wanes, a grand hardy variety ... 30 cents each, \$3.00 doz.

Crimson Splendor. Crimson maroon with deep garnet tones. The flowers are large being 4 inches in diameter. Blooms in late September, a fine novelty50 cents each, \$5.00 doz. Jean Treadway. A sparkling pink with rosy centre, fully double 3-inch flower. Comes in full flower by September 30. A fine novelty.

50 cents each, \$5.00 doz.

Cyclamen. This race of hardy bulbous plants is as yet but little known in America, travellers in Europe often rave over the beauties of these mountain flowers, the foliage is virtually identical with that of the well known greenhouse cyclamen. We are glad to be able to offer a limited number of the following two varieties for use in the rock garden, strong plants in 3-inch pots of flowering size.

R. Europaeum. Purple and white, very attractive cordate foliage.

R. Neapolitanum. Reddish purple and white flowers with lovely foliage, very hardy.

Prices of hardy Cyclamen \$1.00 each, \$10.00 doz.

IRIS

- R. Chrysographes. This by no means common iris has flowers of a richer and deeper purple than any other variety, usually other species are sold for this fine variety ...75 cents each
 - Dichotoma. The latest flowering of the entire family. Attains a height of 3 feet and blooms in August. Flowers whitish spotted lilac purple. By no means common; interesting and desirable50 cents each
- R. Gracilipes. A lovely Japanese crested iris and of especial value in the rock garden. The daintily fringed pale lilac flowers are touched wth orange in the centre.

Extra strong plants 75 cents each, \$8.00 doz.

R. Reticulata. A beautiful early blooming bulbous variety with fragrant

purple blue flowers. Fine dormant bulbs in fall. 40 cents each, \$3.00 doz. R. Reticulata Var. Cantab. Like the pre-

R. Reticulata Var. Cantab. Like the preceding but Cambridge blue in color, a scarce variety.

50 cents each, \$5.00 doz.

HELLEBORUS

Niger. The well known and popular "Christmas Rose," blooming in late fall and very early spring. Absolutely hardy, carries large pure white flowers on sturdy stems. Strong plants\$1.00-\$1.50

LEWISIA

R. Cotyledon. The white flowers which are pink veined down the middle rise from a dense rosette of leaves, very lovely rock garden plant ..50 cents each

R. Howellii. Flowers of this Lewisia are of a deep rose color carried on short racemose cymes. Very attractive.

50 cents each

- R. Rediviva. The best known of the family, the densely clustered leaves are glaucous and smooth. Flowers are usually rose colored but occasionally white. This and all other Lewisias like a gritty soil which has perfect drainage, they succeed well in light shade50 cents each

GENTIANA

R. Acaulis (Stemless Gentian). One of the most beautiful rock garden plants in existence. The flowers are of a glorious blue color\$1.00 each

R. Andrewsi. The closed Gentian is one of our most fascinating native

plants. Color is intense blue, flowers appear from July onwards. Likes

raised by C. T. Musgrave in England. The individual flowers are large, medium blue in color, slightly specked with white towards the base, grows in sun or shade. Blooms in

July and August\$1.00 each R. Septemfida. A handsome species with blue flowers which are lightly spotted50 cents each R. Sino-Ornata. One of the newer and

choicer varieties, beautiful blue.

\$1.00 each

R. Purdomi. Heads of violet purple flowers on procumbent stems. 75 cents each The collection of 6 varieties of Gentions for \$4.50 postpaid.

PAPAVER ORIENTALE

The following named varieties from 4-inch pots can be supplied all increased by root cuttings. They embrace some lovely colors.

Carl Skinner. Beautiful full dark

red, much fimbriated.

Cliveden Beauty. A superb salmon pink variety.

Beauty of Livermere. Deep red with

black blotch.

Bracteatum. A very fine deep red variety.

Cliveden Beauty. Superb salmon pink

variety.

Mahony. A very rich orange scarlet. Perrys Pink. Still one of the very finest clear pinks.

Perrys White. The finest pure white

yet raised.

Princess Ena. Very rich salmon pink.

Parkmanni. Very rich crimson scarlet, raised by the late Francis Parkman and unbeatable for color. Our plants came direct from the original stock which is very scarce. A grand variety.

Prices of Oriental Poppies 50 cents each, \$4.00 per doz. We can also supply strong field plants of all varieties listed.

SAXIFRAGAS

We have pleasure in offering a fine collection of these invaluable rock garden plants which are sure to thrive in New England and other sections equally cold. They come in quite a wide range of colors and by planting a selection flowers may be had for several months. These are all strong plants in pots and will give a fine showing the first season.

R. Aizoon Balcana rosea. Makes very neat clumps, flowers brightly spotted

with pink.

R. Aizoon Baldensis. The smallest of all encrusted forms, forms large mats of tiny grey rosettes, flowers white.

R. Aizoon flavescens. Similar to the type but with small yellow flowers.

R. Apiculata. One of the Kabschia section. Pretty green rosettes and carries 6-inch spikes of yellow flowers.

R. Apiculata alba. Spiny green rosettes

and pure white flowers.

R. Cartalaginea. Rigid sharply pointed grey leaves. Flowers blush pink.

R. Crustata. Easy growing variety like Aizoon with very neat foliage.

- R. Cotyledon pyramidalis. One of the best of growers, tall plumes of white flowers.
- R. Decipiens hybrida. Charming hybrids of neat compact habit, colors run from white to crimson.

R. Gaudini. Large rosettes tinged red. Flowers white spotted pink.

R. H. S. Stokes. A true mossy variety, flowers light red.

R. Hostii. Encrusted foliage, flowers pure white, choice and scarce.

R. Lagaveana. Extra fine variety. Neat small round rosettes making a grey cushion edged with crystal. Buds are

- pink, pure white when fully expanded.
- R. Ligulata Billardi. Long encrusted foliage. Erect panicles of white flowers.
- R. McNabiana. Robust and satisfactory, tall spikes of white flowers.
- R. Primuloides, Elliotts Silver. Tiny compact form carrying pretty pink flowers.
- R. Sarmentosa. Uneven petalled white flowers with pink spots, lovely foliage, more delicate than other varieties and needs good winter protection, very popular as a pot and basket plant.
- R. Umbrosa. A lovely alpine, succeeds well in shade, warm pink flowers.

Prices of Saxifragas 35 cents each, \$400 per doz. 12 varieties, one of each, for \$4.00. 18 varieties for \$5.50.

SILENE

- R. Hookeri. Charming variety from the west Pacific Coast mountains, pale pink flowers50 cents each

VIOLA

- R. Arkwright Ruby. Very rich and striking ruby colored flowers, a choice alpine variety50 cents each
 - Maggie Mott. A large lavender, tremendously popular abroad. The admiration of all who see it in Great Britain50 cents each
- R. Royal Gem. Much larger flowers than Jersey Gem, a continuous bloomer and in fine condition as late as Thanksgiving, rich purple color and flowers are carried well above the foliage35 cents each, \$3.00 doz.

GENERAL COLLECTION OF HARDY HERBACEOUS PERENNIALS AND ROCK PLANTS

Prices of all perennials and rock plants unless otherwise stated, 25 cents each, \$2.50 per doz., \$15.00 per 100.

R. Signifies plants suitable for the rock garden.

ACHILLEA

R. chrysoconica. See Novelties. 35 cents. millefolium roseum. (Pink yarrow.) Excellent perennial.

ptarmica Perry's White. Splendid dou-

ble white, fine for cutting.

Ptarmica. The Pearl. Very popular white form.

ACONITUM (Monkshood).

autumnale. (Autumn Flowering Monkshood.)

Fisheri. (Azure Monkshood), late bloomer.

napellus. (Summer flowering Aconite.)
Deep purple.

napellus. Bicolor. Bicolored Aconitum.

40 cents

napellus, sparks variety. Grows 5-6 feet high, is well branched and flowers are deep blue.

Wilsoni. Fine late variety, tall grower.

AGROSTEMMA

flos-jovis. (Mullein Pink.)

R. AJUGA

genevensis. (Geneva Bugle.)

ALTHAEA. (Hollyhock).

rosea. Single in 6 distinct colors, strong field grown.

rosea. Double in 6 distinct colors, strong field grown.

R. ALYSSUM

alpestre. Splendid low growing alpine.

Valuable new dwarf variety with silvery grey flowers, fine for the rock garden.

LITHOSPERMUM R.

> prostratum "Heavenly Blue." A glorious low growing rock plant of an exquisite blue color. Requires good drainage and full sunshine. 75 cents each, \$9.00 doz.

LOBELIA

cardinalis. (Cardinal Flower). Brilliant scarlet.

LUPINUS. (Lupine).

polyphyllus caeulea. Deep blue. polyphyllus alba. Pure white. polyphyllus roseus. Lovely pink.

polyphyllus Pink Beauty. Delightful shade of pink.

polyphyllus Downers Choice Hybrids,

many unusual shades.

polyphyllus Harkness Sunshine. Fine range of colors. polyphyllus yellow.

LYCHNIS. (Campion).

alpina. The Arctic campion is very R. dwarf, carries rich rosy purple flowers and is fine for the rock garden.

Arkwrighti. Hybrid with very large at-R. tractive flowers, varying from white to intense crimson, mostly brilliant colors.

flos-cuculi. The well known "Ragged Robin."

viscaria splendens. Rich rosy pink.

LYSIMACHIA

clethroides. (Clethra loosestrife). Long, recurving tail like racemes of pure white flowers.

nummularia. (Moneywort). Fine plant R.for covering bare ground, especially good in shade.

LYTHRUM. (Loosestrife).

roseum superbum. Attractive spikes, fine for the shores of ponds and streams.

MALVA. (Mallow).

moschata alba. (White Mallow). An excellent border plant.

MAZUS

R. rugosus reptans. Strikingly large blue flowers on close tufted plants, prefers moist ground, flowers over a long season. 30 cents each.

MENTHA

R. Requienii. Minute prostrate creeping habit, makes a wonderful carpet. Peppermint scented.

MERTENSIA. (Bluebells).
Virginica. (Virginia bluebells). Lovely R.pale blue flowers, glaucous foliage.

MONARDA. (Beebalm, Oswego Tea). didyma. Crimson scarlet flowers, fragrant foliage.

MISCANTHUS. (Eulalia).

gracillima univittata. (Japan rush). Graceful narrow foliage, green with silvery midrib. Fine ornamental grass.

japonica. Long narrow, graceful green foliage, attractive plumes when in flower, 6-7 feet high.

Prices of Miscanthus 40 cents each, \$4.00

per doz.

MYOSOTIS. (Forget-me-not). alpestris Victoria. Bright blue, very R. compact habit.

palustris semperflorens. Bright blue, R. constant bloomer in moist ground.

sylvatica. Of spreading habit, bright R. blue.

NEPETA

Mussini. (Lipwort). Clouds of attractive R. blue flowers all summer, fine for edgings or the rock garden.

Nervosa. Grows somewhat taller than R. mussini and with deeper blue flowers. We introduced this useful plant last vear.

NIEREMBERGIA

Rivularis. Makes a perfect mat like R. growth above which rise large snow white campanula like flowers in great numbers, it has a prolonged flowering season starting in late July, one of the best rock plants we have.

OENOTHERA. (Evening primrose).

fruticosa major. Deep yellow flowers, neat bushy habit.

fruticosa Youngi. Large golden yellow flowers.

PACHYSANDRA. (Japanese spurge).

terminals. One of our best evergreen R. ground covers, succeeds splendidly in sunshine or shade. Strong field grown plants. \$2.50 doz., \$20.00 per 100.

PEONIA. (Peony).

Quite a number of varieties of outstanding excellence will be founded added to the very modest list carried in former years.

- Canadensis. Native variety, rich purple R.flowers.
- divaricata. Lovely pale blue native R. phlox.
- divaricata laphami. A specially lovely R. shade of blue.
- divaricata alba. Good pure white form. R.
- R.subulata alba. Pure white form of the Moss pink.
- subulata lilacina. Pale lilac to lavender R. in color.
- subulata rosea. A rosy pink form. R.
- subulata Vivid. Far the best of the pink R.varieties.

We also have other varieties of Subulata including The Star, Helen Hixon, and G. F. Wilson.

PHLOX, Upright Panicled Section.

Baron von Heekeren. Superb new salmon pink. 30 cents each, \$3.00 doz.

Beacon. Bright cherry red, very effective shade.

Blue Hill. Rich violet blue, the finest of its color.

Camillo Schneider. New, brilliant clear scarlet red. 35 cents.

B. Compte. Fine purple satiny variety, flower heads large, tall variety.

Caroline Vandenburg. Lavender blue. the best of this shade to date.

35 cents each, \$3.00 doz.

Coquelicot. Brilliant orange scarlet. Daybreak. Beautiful delicate pink. Debs. Fiery crimson, quite the richest

of its color. 50 cents each, \$5.00 doz. Deutschland. Splendid new scarlet. 35

cents each, \$3.00 doz.

Eclaireur. Large carmine with salmon centre.

Elizabeth Campbell. Salmon pink with deeper eye. Fine color but this variety lacks constitution. 30 cents each. \$3.00 doz.

Enchantress. Splendid bright salmon. vigorous habit.

F. G. Von Lassburg. Splendid pure white, tall.

Hindenburg. Grand new crimson red.

30 cents each, \$3.00 doz. Jules Sandeau. Large very pure pink,

medium height.

Miss Verboom. Rich glossy foliage like Miss Lingard, an early and continuous bloomer, color lively rosy pink, to all intents and purposes this may be classed as a pink Miss Lingard.

Miss Lingard. Undoubtedly the finest of all panicled phloxes. Rich shiny foliage, the earliest variety to flower and persists until late October. White

with a delicate lilac eye.

Mrs. E. Pritchard. Extra fine clear pink. Mrs. Charles Dorr. Very good lavender.

Mrs. Milly van Hoboken. Superb new pink without eye, very large flowers. I consider this much superior to Elizabeth Campbell.

Maid Marion. Pretty soft lavender. Mrs. Jenkins. Large pure white.

Mia Ruys. Superb dwarf white with immense flowers.

Mrs. Scholton. Deep salmon pink in immense spikes.

Pantheon. Fine rose pink variety.

Richard Wallace. White with large carmine eye.

Rokoko. Beautiful new soft pink variety, flowers large, a great resister of wind and rain. 50 cents.

Rheinlander. Fine salmon pink, claret

red eye.

Rijnstrom. Bright rosy pink, extra large

flowers, very vigorous.

Saladin. Brilliant orange scarlet holds its color better than Coquelicot. 35

Deep salmon pink, analine red Thor.

eye.

New. A very unique color Traviata. tone, carmine red with light red sheen, blood red eye, flowers large, height 30 inches. A fine novelty. 75 cents.

Victor Heurlin. Grand salmon pink variety. 35 cents.

PHYSOSTEGIA. (False Dragonhead).

Virginiana. Upright spikes of light rosy lilac flowers.

Virginiana alba. A desirable pure white

form.

Virginiana vivid. Dwarf pink variety, flowers much later than the tall types. an especially useful perennial.

PLATYCODON. (Balloonflower).

grandiflora. Large violet blue, cup shaped flowers.

grandiflora alba. Fine pure white form. grandiflora nana. Fine dwarf blue form.

PLUMBAGO. (See Ceratostigma).

POLEMONIUM. (Jacobs Ladder).

caeruleum. Erect spikes of deep blue flowers. Fine perennial.

reptans. Dwarf form, fine rock garden R. plant.

POTENTILLA

Miss Willmott. Upright habit, magenta rose flowers.

argrophylla. Silvery foliage and amber

colored flowers.

Rich shiny divided leaves, tridentata.

pure white flowers, splendid alpine. arrensii. Large yellow flowers, warrensii. height 24 inches. Splendid new variety.

PRIMULA. (Primrose).

acaulis. (English Primrose). Soft yel-R.low, an old favorite.

Aileen Aroon. Charming hybrids, mainly R.red shades. 35 cents each.

R. Auricula. Alpine strain, fine range of colors, this proves very hardy in New England. 30 cents.

Beesiana. Glowing velvety purple flow-R.

ers, yellow eye, very free.

Beesiana. X. Bulleyana. Hybrids fine se-R. lection.

R.

R. Bulleyana. Rich apricot yellow in large whorled spikes, fine variety.

Japonica. Rich crimson, occasionally

white and rose in long spikes.

R. Polyantha. Pure white.

R. Polyantha. Yellow.

R. Polyantha. Munstead strain, fine mixture.

R. Polyantha. Primrose. (Pearson's). Soft primrose color. 35 cents.
 Pulverulenta. Very robust, loves moist

ground.

R. Red Hugh. Intense fiery red. 35 cents. All of the primulas listed are perfectly hardy, they prefer some shade and a mulch to prevent too much drying out. Several varieties succeed well in bog gardens. Nearly all succeed fine in woodlands.

R. PRUNELLA. (Selfheal).

Webbiana. Round heads of purple flowers all summer, succeeds well in shade.

PYRETHRUM. (Persian daisy).

roseum, single in white, pink and red shades separately.

roseum, choice mixed all colors. roseum, double, choice mixed.

uliginosum. (Giant oxeye daisy). Grand border plant, flowers in late summer.

R. SAGINA

glabra (Pearlwort). A low tufted herb, very fine leaves, fine for edging or ground cover, flowers pure white.

SALVIA. (Sage).

azurea grandiflora. Beautiful deep blue flowers in long racemes, flowers in late September. One of our best blue perennials.

Pratensis tenorii. Rather dwarf in habit, a smother of blue flowers in June.

Pitcheri. Grows 3-4 feet high, rich gentian blue flowers in early fall, greatly admired. 35 cents.

sclarea. Blue and white flowers, large wooly foliage.

SANGUINARIA

R. canadensis. (Bloodroot). Pure white flowers in very early spring. Prefers shade and moisture.

R.**SAPONARIA**

ocymoides. (Rock Soapwort). Rosy pink, fine trailing rock plant.

SAXIFRAGA. (Saxifrage).

R. cordifolia. Broad dark green foliage, strong spikes of pink flowers in very early spring.

R. crassifolia. Large closely clustered leaves and spikes of drooping pink

flowers.

megasea hybrids. Fine mixture of the R.large leaved Saxifragas.

For other varieties of Saxifragas see

Novelties.

SCABIOSA. (Scabious).

Caucasica. Beautiful rich blue, splendid for cutting. 30 cents each, \$3.00 doz.

Caucasica. Houses choicest hybrids. Beautiful shades of blue, magnificent perennials. 40 cents each, \$4.00 doz. Goldingensis. A lovely form of Caucas-

ica, rich lavender blue flowers on long stems, 35 cents each, \$3.00 doz.

SEDUM. (Stonecrop).

R. acre. The pretty little gold dust of old walls and roofs.

R.

aizoon. Very neat rock plant. album. Tufted evergreen habit, white R. flowers. anglicum. Very neat compact variety

with white flowers.

arboreum. Interesting variety, fine to R.use in house arangements with cacti.

R. dasyphyllum. Attractive bluish foliage, white flowers.

R. ewersii. Rose colored flowers, very pretty rock species.

R. fosterianum. Unique and very distinctive form.

R. Hispanicum. Sweetly pretty, small growths, pink flowers.

R. Kamschaticum. Orange stonecrop.

R. lydium. Neat and interesting, glaucous foliage.

R. murale. Pretty graceful species for walls or rockeries.

R. obtusatum. Bronzy foliage and yellow flowers.

R. Oppositifolium. White stonecrop.

R. reflexum. Yellow flowered species.

R. sexangulare. Dark green foliage, yellow flowers.

R. sieboldii. Lovely late flowering variety from Japan, bright pink flowers, very useful variety. 35 cents each, \$4.00 doz.

R. spathifolium. Excellent variety for house culture with cacti.

spectabile. Of erect habit, 18 inches in height, large heads of showy rose colored flowers.

spectabile brilliantissima. Extremely brilliant variety, has received many high awards.

R. spurium coccineum. Rosy crimson flow-

R. stoloniferum. Purplish pink flowers.

Sedums are good subjects for the drier locations in the rock garden also in walls, they withstand long periods of drought with impunity, all prefer sunshine. An absurdly long list of varieties is often seen, distinctions are so trifling that even experts can hardly find them.

SEMPERVIVUM. (Houseleek).

R. arachnoideum. Spider web houseleek, very interesting plant.

R. arachnoideum hastipetalum. Very small form of the spider-web houseleek.

R. arenarium. Small green rosettes in great numbers.

R. atro-violaceum. Richly colored variety.

R. doellianum. Small hairy rosettes of light green.

R. fimbriatum. The fimbriated houseleek.

R. fauconette. Bronzy colored, attractive rosettes.

R. funckii. The green rosettes are tipped brown.

R. globiferum. Flattened rosettes of grey green.

R. rubicundum. Large violet tinged rosettes, very striking.

R. schotti. Rosettes 2-3 inches across, green tipped brown, is also known as S. glaucum.

R. soboliferum. "Hen and Chickens." Lusty grower.

R. tectorum. Roof houseleek, the best known variety.

R. tectorum violaceum. Rich violet coloring.

The sempervivums are splendid for hot, dry sunny locations where soils are light. While all flower the rosettes are the really attractive feature of the plants.

SIDALCEA

hybrida. Splendid perennials with upright spikes of flowers reaching a height of 4 feet, varying colors.

SILENE. (Catchfly).

R. acaulis. (Moss campion). Lovely alpine rose purple flowers. 50 cents each.

R. alpestris. White flowers, an elegant dwarf variety. 50 cents each.

R. hookeri. A lovely pale pink variety from the mountains of California and Oregon, 50 cents.

R. maritima. Sea pink. Pretty trailing plant with white flowers.

R. maritima rosea. Attractive white form of above.

R. schafta. Rosy purple, trailing habit, good rock plant.

R. sylvestris. Excellent rock garden variety.

STACHYS. (Betony).

R. lanata. White woolly leaved plant, fine for rockery or edgings.

STOKESIA. (Giant cornflower).

cyanea. Large blue flower of aster like form, late bloomer.

SWEET WILLIAM. (See Dianthus).

SPIRAEA. See Astilbe.

TEUCRIUM.

chamaedrys. Splendid perennial plant, bushy habit, greyish foliage, flowers R. are reddish purple to rose in color produced in whorls. 30 cents each, \$3.00 doz.

THALICTRUM. (Meadowrue).

R. adiantifolium. Maidenhair meadowrue.

graceful fern like foliage.

alpinum. Fluffy heads of creamy flowers, charming miniature variety R. for the rock garden. 35 cents.

dipterocarpum. Lovely mauve flowers in

large panicles. 35 cents each.

flavum. Pale yellow heads of flowers on long stems in July.

glaucum. Fragrant yellow flowers, blue gray foliage.

THERMOPSIS

mollis. Erect spikes of soft yellow flowers.

THYMUS. (Thyme).

R.argentea. Silvery-leaved thyme.

aurea. Golden foliage very attractive. R.

R.

citriodora. Very spicily fragrant. nitida. Of more erect habit than other R.varieties, white flowers, suggestive of Scotch heather when flowering, very unique.

R. Creeping habit, flowers serpyllum.

purple.

R. serpyllum album. Pure white flowers, pretty variety.

serpyllum coccineum. Red flower form. R.R.

serpyllum lanuginosus. Woolly leaved creeping thyme, very popular variety.

TRADESCANTIA. (Spiderwort).

Virginiana. Useful garden plant, deep blue flowers.

TRILLIUM. (Woodlily).

R.grandiflorum. White trillium, splendid naturalized in shade.

stylosum. Pink trillium. Loves leaf mold R. and shade.

TRITOMA. (See Kniphofia). TROLLIUS. (Globeflower).

Asiaticus. (Asiatic globeflower). Rich orange. 50 cents each, \$5.00 doz.

Canary Bird. Lovely pale yellow variety.

Elinor. A distinctive golden vellow form.

Fire Globe. An excellent orange varietv.

europaeus. (Europaean Globeflower). Rich golden yellow.

pumilus. Dainty rock garden variety, R. not exceeding 6 inches in height, golden yellow flowers.

japonicus. Very rich orange.

ledebonn golden queen. Beautiful richly colored, late blooming variety. Prices of Trollius 50 cents each, \$5.00

per doz.

TUNICA. (Tunic flower).

saxifraga. Small pale purple flowers, R. produced all summer.

VALERIANA. (Garden heliotrope).

officinalis. Useful, robust, fragrant, free flowering perennial.

VERONICA. (Speedwell).

Blue Jay

Deep blue spikes similar to subsessilis but dwarfer and an earlier bloomer. candida. Pretty white variety.

corymbosa stricta. Fine alpine, dense plumes of azure blue flowers. R.

filiforme. A very dwarf rapidly spread-R. ing variety for ground cover, does well in shade.

incana. Pretty silvery foliage and violet R. blue flowers, fine plant for the rock garden or edging.

longifolia. Fine late blue variety with

erect spikes, late bloomer.

R.

longifolia subsessilis. One of the most valuable of all blue flowering perennials. 40 cents each, \$4.00 doz.

R. repens. Superb, compact growing rock plant, smothered with pale blue flow-

ers in late spring. Royal blue. Dwarf bushy habit, dark R. blue flowers. 50 cents each.

rupestris. Splendid rock plant, lovely

blue flowers.

saxatilis. Pretty blue flowers, prostrate R. habit.

Violet blue flowers spicata. in branched spikes.

spicata alba. Pretty pure white form.

spicata rosea. A lovely warm pink variety.

TEUCRIUM R.

Execllent border or rock plant, rich blue flowers.

R. VINCA

R.

minor. (Periwinkle). Splendid for ground covers in either sun or shade.

MINOR ALBA R.

Pretty pure white variety.

R. Bowles variety. More compact habit, much superior to type. 50 cents each, \$5.00 doz.

VIOLA. (Violet family).

Apricot. Lovely rich apricot color, con-R.

stant bloomer, very desirable. Arkwright ruby. See Novelties. 50 cents. R.

Black Knight. Jet black flowers of mod-R. erate size, striking variety. bosniaca. Distinct alpine species with rosy magenta flowers.

Bowles Black. Small circular black flowers with tiny golden centre.

cornuta alba. Useful pure white trail-R. ing variety.

R. cornuta atro-purpurea. Rich deep violet.

cornuta lutea. Golden yellow, the clear-R.est of its color.

R. Florarensis. Free blooming alpine variety which thrives here.

R. gracilis. Tufted habit, rich violet flowers in great profusion.

R. Jersey Gem. A wonderfully profuse bloomer, rich purple color, the most dependable and persistent of the whole family.

R. Jersey Gem alba. I introduced the pure white variety of Jersey Gem 5 years ago, and it has proved just as satisfactory as the original purple type. The exact counterpart of Jersey Gem except in color.

R. Lavender Gem. A replica of Jersey Gem but flowers are of a soft rich laven-

der.

R. Little Gem. Bluer than Jersey Gem and smaller flowers. A very compact form. Fine for rock garden.

Maggie Mott. See Novelties. 50 cents. R. Lord Nelson. Rich glowing violet purple, free bloomer and strong grower.

R. odorata. Sweet scented violet.

R. odorata. Double Russian. Perfectly hardy, the deep purple flowers are intensely fragrant, the stems are rather short but the odor far exceeds that of any other violet. This variety has been very scarce but we have now secured a fair stock of it.

R. odorata. Single Russian. A single sweet scented purple variety.

R. odorata rosina. This is the charming and very fragrant pink form which flowers heavily in late fall and again in spring. Blooming in January this year.

R. royal gem. See Novelties.

A glorified Jersey Gem, larger, of better color also flowering later and more constantly. Easily the best of this type of Viola.

We can also supply a number of varieties of the larger flowered tufted Violas like lutea splendens, Admiration, Primrose Dame, Imperial Blue and

Blue Perfection as well as a superb strain of Pansies.

YUCCA

filamentosa. Vigorous spikes attaining a height of 5-6 feet, large creamy white white flowers. Succeeds well in quite poor soil, very striking ever-

green foliage. 30-50 cents.

The price of all perennials not otherwise priced is 25 cents each, \$2.50 per doz., \$15.00 per 100. We carry a good number of rock plants in pots, also some other taller growing perennials, making it safe and easy to plant these out at any time.

HARDY VINES OR CLIMBERS

ACTINIDIA

arguta. Splendid Japanese climber, rich, shiny foliage, white flowers, followed by sweet edible fruits.

\$.75-\$1.00 each

AKEBIA

quinata. (Five leaved Akebia). Green clover like foliage and drooping dark purple flowers\$.50-\$.75 each

AMPELOPSIS

quinquefolia. (Common woodbine or Virginia creeper). Very vigorous native vine, beautiful foliage in fall.

50 cents each

Veitchi (Boston ivy). An immensely popular climber for covering walls,

foliage very brilliant in fall. 50 cents each

ARISTOLOCHÍA

sipho. (Dutchman's-pipe). The handsome broad leaves make a grand screen\$1.00 each

BIGNONIA

radicans. (Trumpet-creeper). Vigorous climber, fine for covering unsightly objects. The flowers are large deep red with orange throat50 cents each

grandiflora. Larger and richer colored flowers, a little more tender than radicans does finely along the coast.

\$1.50 each

CELASTRUS. (Bittersweet).

articulatus. Japanese bittersweet. Robust climber for covering walls, fences and banks covered in fall with rich orange fruits\$.50-\$.75 each scandens. Common bittersweet. Very showy orange fruits which cling to the shoots practically all winter.

\$.50-\$.75 each

CLEMATIS

Duchess of Edinburgh. Very large double white flowers\$1.00 each Henryi. Large single white\$1.00 each Jackmanni. Rich, velvety-purple broad petalled flowers\$1.00 each Montana undulata. Flowers 1½-2 inches in diameter, flowers just after wistarias, the earliest of all the clematis, extra fine variety75 cents each paniculata—Sweet Japanese clematis, very popular50 cents each Ramona. Lovely large light blue. \$1.00 each veitchiana. A lovely new variety with nearly pure white pendulous flowers. A September bloomer.75 cents each

EUONYMUS. (Wintercreeper).

Kewensis. A splendid low growing trailer with small, dark green oval leaves, fine in the rock garden.

50 cents each, \$4.00 doz.

Minimus. Very fine variety, suitable for rock gardens50 cents each radicans. Splendid, thoroughly hardy evergreen climber\$.50-\$1.00 each radicans vegetus. Broader leaves than

type, equally good as a ground cover, shrub, hedge plant or climber, fruits very abundantly. Succeeds equally well in sunshine or shade.

50 cents to \$2.00 each

HEDERA

helix (English Ivy). Splendid evergreen for walls, succeeds best in partial shade, also fine as ground cover. Very strong plants running up to 6 feet in height\$.25-\$1.00 each Baltica. Small leaves, very hardy type,

suitable for New England. \$.25-\$1.00 each HYDRANGEA

peliolaris. Climbing hydrangea ..\$1.00 each

JASMINUM

nudiflorum. The hardy yellow jasmine, given a well sheltered position this fine climber is perfectly hardy near Boston, it flowers very freely during January and February, in 1932 was at its best by January 15. Strong

LONICERA. (Honeysuckle).

Japonica Halleana. Fragrant white and yellow flowers all summer ..50 cents each sempervirens. Scarlet trumpet honey-

suckle, bright red flowers ..50 cents each

LYCIUM. (Matrimony Vine).

Pale purple flowers, later attractive orange and red fruits along the

POLYGONUM

auberti. Superb for rambling over trees, strong climber covered with clouds of fleecy like pure white flowers.

\$.75-\$1.00 each

VITIS

coignetiae. Strong growing vine, splen-did for covering trees and arbors with a thatch of heavy handsome foliage. Strong plants in pots75 cents each

WISTARIA

sinensis. Blue Chinese Wistaria. Splendid climber, grafted plants\$1.00 each sinensis alba. A pure white form of the above, grafted plants\$1.00 each

Note.

Grafted plants of Wistarias are sure flower. A great number offered by nurserymen are seedlings, these are sold cheaply

and cause many disappointments as they rarely flower. Their sale should be discouraged.

SOME DESIRABLE DECIDUOUS FLOWERING TREES AND SHRUBS AZALEAS

We have pleasure in offering an extra fine selection of these beautiful shrubs.

Arborescens. (Sweet Azalea). Fragrant white flowers in July. Extra strong.

Calendulacea. (Flame Azalea). Shades run from yellow to deep orange, flowering in late May and early June \$2.00 \$2.50 early June \$2.50 ea

in late May and early June. \$2.00-\$3.50 each Japonica. (Japanese Azalea). Large clus-

ters of rich orange flowers\$2.50 each

Kaempferi. (Japanese Torch Azalea).

Brilliant red flowers\$2.00-\$4.00 each

Mucronulatum. (Mongolian Azalea).

Rose, Rock, Perennial and Other Types of Gardens Planned and Planted

Expert Advice Furnished on All Horticultural Matters

Lectures Given on Horticultural Subjects, Illustrated if desired

QUALITY BRAND PULVERIZED SHEEP MANURE

The purest and best brand obtainable. Splendid for the lawn, flower garden, vegetable garden, shrubbery and house plants. This is New England produce and vastly superior to the brands coming from the West which are usually much adulterated. Compare price and quality with other brands offered. 5 cents per pound in small lots, \$2.50 per 100 pounds, \$45.00 per ton.

PURE CANADIAN UNLEACHED HARDWOOD ASHES

In conjunction with fine bone this makes the ideal lawn fertilizer, brings in no weed seeds like barnyard manure. Excellent for all garden purposes. In jute bags containing 100 pounds \$2.50, per ton \$45.00.

PURE GROUND BONE

The very best quality of finely ground bone obtainable. Unexcelled for use on the lawn or in the garden. Makes an excellent and safe top dressing for geraniums, callas, and other flowering plants in the home. Per 100 pound bag, \$2.75; per ton, \$50.00. In small lots, 6 cents per pound.

VIGORO

No fertilizer introduced in recent years has so soon jumped into public favor as Vigoro. This is a superior combination of plant foods which has won high praise from all who have used it. We have tried it out ourselves on roses, herbaceous perennials, lawns and shrubs as well as indoor plants, and it has given every satisfaction in all cases. We can with every confidence recommend this fertilizer for general garden and greenhouse use. A 50 pound bag will suffice for 3,500 square feet of lawn or garden. Carried in neat cloth bags at following prices 25 lbs., \$1.75; 50 lbs., \$2.75; 100 lbs., \$5.00, also in small cartoons, 50 cents.

PURE LEAF MOLD

This we are offering for the first time, from rotted oak leaves which are much the best for horticultural purposes, screened and ready to use at once, splendid for seed beds, for adding to potting soil, for the flower garden and many other purposes. This is pure, and not adulterated material which is too commonly sold.

\$2.50 per sack of $2\frac{1}{2}$ bushels. \$1.00 per bushel.

IDEAL PEAT MOSS

This is the original fine grade peat moss imported from Holland which we have been offering for some years with steadily increasing sales. Personally we use it heavily for incorporating with the soil, for mulching, for using on lawns where grass dries out badly and in other ways. Invaluable for incorporating with light soils and in heavy land to assist in opening it. It is clean, pleasant to handle, weedless and inodorous. This must not be confounded with various brands of cheap German peat offered at lower prices, packed in smaller bales, often very much coarser in grade and of inferior quality.

Try the Ideal Peat Moss as a mulch on roses or perennials, applying it an inch thick, you will be surprised to find how cool and moist this will keep your ground, making constant waterings needless. Assists materially in preventing black spot and mildew from attacking roses. We carry a large stock of this Peat Moss on hand all the time and can make prompt deliveries. We can make free deliveries in Boston and many other towns and cities adjoining it. One bale will mulch 300 square feet, one

inch thick.

Prices \$1.00 per bag, \$3.50 per bale, 10 bales \$32.50, 20 bales \$62.50.

We cordially invite all interested in Narcissi to call and look over our collection of these which are usually well flowered from May 1 to 15. We will also have a fine display of Darwin, Breeder, Cottage, and other Tulips, the bulk of these will be at their best from May 15 to 30.

Our Lilium beds will have their first flowers in late May and persist until late October. June and July are months when the greatest number of varieties will be found in flower.

We are at all times glad to have visitors look over our gardens, they will not be importuned to buy.
